---

The President, City Mc Mysore, requests that orders issued in G.O. Nos 1085-29/Ml 11-47-30 dated the 14th November 1947 may be reconsidered as it is understood that 50 more telephone outlets were recently sanctioned by Govt and that telephone connections may be given to the residences of the Municipal Councillors, or, in the alternative to all the Stations and Outposts in the Mysore City

2) It may be mentioned in this connection that the President had made the recommendation for grant of telephone connections to

OM } Providing of telephones to Mohallas

GOVERNMENT OF

Sir,

Subject :Providing of Telephones to the Mohallas in the City

In enclosing herewith a copy of the letter addressed to the Superintendent, Power and Light, Mysore, in the matter of making arrangements for installation of telephones to the residents of the Municipal Councillors as resolved by the Council or in the alternative to arrange for the installation of telephones to all the Police Stations and Police Out-posts in the several Mohallas where at least the Municipal Councillors and the public can very easily and conveniently communicate their grievances to the several Municipal authorities to whom they have to approach for immediate relief, I have the honour

to invite favour of your kind reference to your letter No L 10829/M1 11-47-30 dated 14-11-47 intimating that the question of providing telephones would not be possible as there were not sufficient number of outlets at the time It is since learnt that as many as 50 more telephone outlets were recently sanctioned by Government I request you therefore that the Electric Department authorities may be kindly addressed in the matter of either providing all the Municipal Councillors with telephones as already resolved upon by the Council or in the alternative provide telephones to the important police stations and outposts in the City

It will not be out of place in this connection to state that the members of the Council are placed in an akward situation in answering rate-payers who mostly go to them in their mohallas for making arrangements for the relief they ask for and unless some arrangement for ready contact with the authorities concerned is made, it will not be possible for the Municipal Councillors to help the public I, therefore request you kindly to obtain very early orders of Government in the matter

Yours faithfully,
President 18/11

Sir,

I have the honour to state that the Council resolved in the year 1947 that telephones should be given to each of the member of the Council with a view to enable them to have immediate contacts with the officers of the Municipality and other departments with regard to matters of public importance and a reference had been made to Government in the matter A reply was received then that there was no possibility of sanctioning the proposals for want of outlets It is learnt that 50 more telephones have been recently sanctioned by Government and that some more telephones are to be sanctioned early I request you therefore to kindly intimate if telephones could be provided now to the residence of the Municipal Councillors as resolved by the Council In the alternative I request you kindly to arrange for the installation of telephones to all Police Stations and Police out-posts in the several Mohallas from where at least the Municipal Councillors can easily and conveniently communicate to the police and Municipal authorities any public inconvenience such as the breaking out of fire accidents, light and water troubles etc.

Yours faithfully,
